PROJECTS

Kicks Hub Collection (E-commerce project) ([Get Code](#))

I developed the Kicks Hub Collection e-commerce app using React.js, HTML, CSS, and JavaScript for frontend functionality. With Node.js and MySQL, I built APIs and procedures for smooth data handling. My work enhanced user experience with personalized features and improved app performance.

Resume Craft (Resume Builder) ([Get Code](#))

Developed Resume Builder app with Next.js & Tailwind CSS for optimal performance. Implemented form-based resume creation for user convenience. Ensured security via Next.js authentication.
